

## 金屬沖壓加工件

### METAL STAMPINGS

採用SUS409L、SUS436等不銹鋼金屬材料，通過沖壓設備和模具，對板材、管材等進行加工成形。

Using stainless steel metal sheet such as SUS409L, SUS436 etc, through stamping equipment and tooling, forming into tube.

---

#### 產品特性 PROPERTY

- 耐蝕性和耐熱性優良，沖壓、彎曲等熱加工性好。  
Excellent corrosion and heat resistance, excellent thermal processing for stamping, bending, etc.
- 與各種纖維製品模組化，降低熱損失且防止纖維飛散。  
Pattern assembly with various fiber products, reducing heat loss and preventing fiber dispersion.
